

CORN OIL

FEC Solutions offers a high-quality, industrial corn oil. FEC Solutions is different from other corn oil providers because we work with you to customize the use of the corn oil to fit your needs. We can ensure quality standards through our internal testing protocols and supplier verification processes. We continually monitor the product to make sure it is providing you the best value possible.

With our partner at Feed Energy, we have a fleet of trucks, transloading and rail options at our disposal. The logistics opportunities, relationships in the industry and transparent transactions equals real value to you.

PRODUCT USE

- Biodiesel production
- Export
- Asphalt
- Dust control
